Performance Change Pathway™

The Dale Carnegie Design and Delivery Framework

The Dale Carnegie experience engages learners from the initial contact through follow-up and support to reinforce key behaviors. Our methodology supports the development of skills and habits needed to sustain performance change. We believe that the emotional shift is as important as the behavior shift. That's why our Performance Change Pathway™ shows our deliberate approach to create training programs that drive improved performance.

Dale Carnegie's Performance Change Pathway™ encompasses five key components: Input, Awareness, Experience, Sustainment, and Output. We know that these components are essential to the design and delivery of our programs. They formulate a continuous learning path for participants to drive organizational results.
